# Spark Arrestor Silencers

## Model SSU Series

### Standard Silencer Application

- Exhaust spark arrestor
- Designed for use on internal combustion engines
- Effective in residential areas where reduction of incandescent carbon to atmosphere is desirable

### Standard Construction Features

- Easy access cleanouts
- Reactive type silencer
- Can be mounted vertically or horizontally
- High temperature (1200° F.) satin black finish

### Optional Construction Features and Accessories

- Complete line of accessories
- Larger sizes available upon request

Side inlet/end outlet connection style available on Model SRU and Model SSU. Please consult factory for additional information.
